Confined Space – High Risk

Course Aim

To provide delegates with the knowledge and skills to work safely within high risk confined spaces.

Who Should Attend

Those working within high risk confined spaces. High Risk confined spaces exist where there is a specified hazard that cannot be eliminated or controlled. There may or may not be access issues and the work activity is being carried out expecting the presence of the specified risk. The work environment will be entered using self-contained breathing apparatus and will involve non-standard entries involving complex operations which will introduce additional risk and require specific controls and arrangements.

Course Contents

- The Confined Spaces Regulations 1997 & Approved Code of Practice
- Claustrophobic Theory and Practical
- Identification of Risks and their Control
- Workplace Safely
- Weil's Disease
- Hazardous Atmospheres and Gas Monitoring
- The Risk Assessment Process
- Operation of Safe Systems of Work
- Use of Permit to Work Control Measures
- Personal Protective Equipment
- Selection of Suitable Equipment, Pre-use Inspection and Safe Operation (IP rated, intrinsically safe and ATEX approved).
- Fall Arrest Systems
- Emergency Procedures
- Theoretical and Practical Training on Self-Contained Breathing
- Apparatus (SBCA) and Breathing Apparatus Entry

Duration

3 Days

Cost

£525
