

OPUS INDUSTRIAL SERVICES LIMITED

ENVIRONMENTAL POLICY

OPUS Industrial Services Limited hereby makes known its policy concerning protection of the environment.

The OPUS recognises both the importance of prevention of pollution and the benefit of avoiding the greater cost of rectifying damage after the event. Its environmental policy is therefore:-

- to give the highest priority to safety, with the object of minimising accidents and unforeseen occurrences which may contribute to damage of personnel, property or the environment
- to minimise any disturbance to the local and global environment and to the quality of life of local communities in or near which the OPUS operates
- to comply fully with all statutory regulations applicable to the OPUS and its operation
- to maintain the appearance of OPUS premises to suitable standards
- to operate and maintain vehicles, plant and equipment in a responsible manner so as to provide the maximum practicable environmental protection
- to provide the information and instruction necessary to ensure all materials used by the OPUS are properly stored and used and that waste is safely contained and disposed of
- to control the incidence of noise, emission of odour or dust into the atmosphere, road vehicle movement and the production of effluent to the lowest practicable level.

Signed

N Kerr
